

District Goal: The district will ensure that a quality, adequate and safe transportation system is maintained to assist in providing the best educational opportunities (academic and extra-curricular) for our students.

Smart Goals

- 1.) The District will implement a bus replacement schedule that allows all active buses to pass annual inspections.
 - a. Review purchase options which will include new purchases, used purchases and lease considerations
 - b. Provide an annual report to the board on bus status (i.e. mileage, maintenance, condition, and inspection).
 - c. Maintain bus purchases as a high priority for funds obtained through the bond.

- 2.) The District will explore options to ensure a safe environment is maintained on all buses for our students. Measures will also be implemented to reduce the number of disciplinary incidents.
 - a. Pursue grant opportunities to install security cameras on the entire bus fleet.
 - b. Train the bus drivers before school begins on the expectations and consequences for behaviors experienced on the bus for a more fair and consistent disciplinary system. Chart number of discipline referrals for future comparisons.
 - c. Develop and provide a set of bus rules with consequences to all students and families at the start of the school year. Parents must acknowledge that they have received the document.
