October 30, 2020

This is becoming way too familiar and I regret to have to keep this going, but I must keep our families informed as things happen and potentially impact us all. An Intermediate School student tested positive today per the health department and we have conducted contact tracing to determine the potential exposures. All of these families are currently being contacted and 31 students will be quarantined for the required 14 days. Six (6) staff members impacted will also be quarantined for these days and will teach remotely as long as their health allows them to carry out their responsibilities.

The staff has done a good job at trying to minimize this impact, but it inevitably hits a greater number of students in this size school with a rotating schedule. We will continue to maintain safety protocols in the building as all others return Monday with deep cleaning occurring prior to then. Our staff will continue to do their best to accommodate these incidents as they occur while offering quality learning opportunities for all students. Thank you again for your patience and understanding as we continually adjust to these events. I am sure we are not over it yet and we will have more changes as time progresses.

I cannot say this enough, we have amazing people within this Warrior nation: students, staff and families. It is through these concerted efforts by all involved that we will prevail in the end. It doesn't mean we won't have obstacles to overcome in the process, but we will do all our best to provide quality learning opportunities as we migrate through this pandemic we are now facing. Thanks for all you do to keep Chippewa Hills a great place to learn, work and live.

Bob Grover

Please note the MI Start Map for most recent data for our counties (look at Mecosta for the month of October). <https://www.mistartmap.info/>
